The DIDO Story

A phoenix rising from the ashes

The original DIDO ran away from home, pitched her tent on a barren shore and became a Queen. How can you do better? Her children established colonies wherever you could make riches and ruled the world from their home, Carthage.

This happy story had a twist. Dido chose to die for love.

Dido's vineyards abound with love. Like Dido's colonies they are where each one is best. Follow Dido and discover where

Sauvignon Blanc sings, where Pinotage is unrivalled and Pinot Grigio breaks hearts.
